

Event programme

Date: 10 November 2026

Time: From 9:15 | Morning event

Venue: Sede Afundación, Policarpo Sanz, Vigo, Spain

About the event

The final event will present the results and lessons learned from ICAREWOUNDS and explore how artificial intelligence can improve wound care. It will bring together clinical, technological and innovation perspectives to discuss trustworthy, patient-centred digital healthcare and the adoption of project results in practice.
